

Landing Page (First Focus)

- ☐ Top hero area with logo + floating play button
 - ☐ Heroines slider area
 - ☐ Smooth scroll-down on click flow
 - ☐ Cover the following features:
 - Early members perks
 - Premium membership (Free mint per month character & companion, etc, x2 airdrop) + DAO - 200 IMX Lifetime (in the city)
 - ☐ Development Progress (GitBook / Medium / Academy)
 - Tokenomics links (whitepaper, GameFi + DeFi)
 - Q1 One more city beta 3D open-world in Unreal
 - Announcements section (TGE planned for Q2 2026)
 - Roadmap section (show fast-paced progress from the last month)
 - ☐ Email collection + whitelist founders
-

Branding & Design

- ☐ Complete logo & design guide: fonts, colors, spacing, edges(0), shadows(0), gradients(0), 3D
 - ☐ Finalize general style for site + in-game UI
-

Authentication & User Accounts completion

- ☐ Email confirmation (Phase 2)
 - ☐ Support for outlook.com (Phase 2)
 - ☒ ~~Forgot Password flow~~
 - ☐ IP checking & storing at registration (Phase 2)
 - ☐ Welcome email (customized via Supabase) + all emails customized
 - ☐ Wallet Connect Integration / Immutable Passport Login
 - ☐ Settings:
 - ☐ Change email + confirmation
 - ☐ Change password + verification
 - ☐ 2FA with OTP codes
 - ☐ Update personal details
 - ☐ Friends management
 - ☐ Support email
-

Game Core (Heroine & Dragons Theme)

- ☐ Heroine's NFT as the main avatar (Phase 2)

- ☐ Background music (Phase 2)
 - ☐ Character creation (3D + NFT)
 - ☒ ~~Create a new Hero page to be used for the editor~~
 - ☒ ~~Set up a 3D model viewer and editor~~
 - ☒ ~~Use the first example model instead of the Cube~~
 - ☒ ~~Implement controls for rotating and zooming~~
 - ☒ ~~Enable swapping parts and changing colors/textures~~
 - ☒ ~~Choose frontend framework (Vue) and 3D rendering library (Three.js)~~
 - ☐ Manage assets (textures, models, colors)
 - ☐ Develop UI for selecting and customizing options
 - ☐ Organize A - Optimize loading + Load assets dynamically selection based
 - ☐ Organize B - models and textures in project folders
 - ☐ Develop character customization features (race-class-bloodline, clothing(top, bottom, shoes), weapons, hair)
 - ☐ Make all assets colorable
 - ☐ Add zooming to the head (ears, eyes, hair, beard, face)
 - ☐ Add MINT NFTs (5) features (images and 3D file) 10 IMX in total * 78890
 - ☒ ~~Resolve the footer disappearing on resize~~
 - ☐ Create or acquire original 3D models and textures
 - ☐ Test minting and marketplace locally on the `wild-dragons` project
 - ☐ Storyline + heroines' names generation (relationships, summon status, intro video)
 - ☐ Initial scenery/world design (Hexagonal map city + 6 outside areas)
 - ☐ Game mechanics development and documenting (enemies, experience, infinite growth system, Resources, achievements) + D&D-style dice rolling
 - ☐ Gameplay modes:
 - ☐ Wilderness (capture goblins, acquire a companion, develop character)
 - ☐ Oversee mining
 - ☐ Expedition to a faraway place (Phase 2) - Season 2 (Athergrad)
 - ☐ PvP clash (street fight)
 - ☐ Summoning/Minting area
 - ☐ City (market, forge, cafe, inn/clans, vault/bank, witch/potions, palace/city-hall - voting)
 - ☐ Heartforge Dome: Central, faint glow, surrounded by a cobblestone square with a statue
 - ☐ Scholars' Towers: Connected by aerial bridges; labs and libraries visible from above.
 - ☐ Merchant Quarters: Tiered markets, rooftop walkways, colorful banners.
 - ☐ Residential Districts: Alleys, terraces, stairways, lanterns.
 - ☐ Riverside / Gate District: Subtle river, small quays, warehouses, entry gates with watchtowers.
 - ☐ Outskirts / Roads: Connect the city to mountains, forests, and trade routes.
-

NFTs & Marketplace

- ☒ ~~Decide: external marketplace vs in-game marketplace~~
- ☐ Founder NFTs (Dragon Egg that hatches into Dragon, funding model)
- ☐ Token for in-game use + DeFi utility

- ☐ NFT drops whitelist + email collection + Vested airdrop of minted tokens
-

Mini-Production Milestone (First Concrete Target)

(tight deadline milestone — goal: a “demo-ready slice” of the project)

- ☐ Landing page is functional with hero, roadmap, and TGE announcement
 - ☐ Whitelist + email collection working
 - ☐ Community building started with Discord and X
 - ☐ Community building (later Unigram and others)
 - ☐ Welcome email integrated into basic auth (signup/login + confirmation)
 - ☐ One free starter NFT flow integrated
 - ☐ Pitch deck draft prepared (with early visuals + tokenomics outline + trailer)
 - ☐ Initial grant applications submitted:
 - ☐ [Immutable Fund](#)
 - ☐ [Digital Worlds NFTs](#)
 - ☐ [Ronin Grants](#)
 - ☐ Solana Grants
 - ☒ ~~Explore other possible grant opportunities~~
 - ☐ make final list
 - ☐ PWA optimization (add install button to home)
 - ☐ SEO optimizations + Monitoring & analytics (Sentry + Google Analytics)
 - ☐ Buy & set up domain + SSL
 - ☐ SMTP & domain-based emailing
-

Post-Production (Phase 2)

- ☐ Chat & social features
- ☐ Advanced character customization (bloodline, head(ears, eyes, hair, face, beard), body, clothing(top, bottom, shoes, hats, glasses), weapons, hair) + Custom voices
- ☐ Social feed
- ☐ Leaderboard / Hall of Fame
- ☐ Faraway Lands expansion
- ☐ Second city (Expansion: city-to-city content)
- ☐ Creator/Developer Initiatives
- ☐ Referral System and Rewards
- ☐ TGE and related events
- ☐ Daily Quests
- ☐ Staking / Vault (in city bank)
- ☐ Make a complete final list and distinguish Season 2 and Phase 2
